

SAASNOW: BUSINESS INTELLIGENCE AND ANALYTICS AS A SERVICE

BUSINESS INTELLIGENCE FROM THE CLOUD

With SaasNow for SAS® Viya® you will be able to solve your business problems regardless of the size of your organization. SaasNow enables you to maximize the return on your IT investments without the constraints of infrastructure or availability of skilled staff.

Using this cloud solution you will be able to launch a self-service business intelligence and analytics environment for your entire organization or for a department within your organization without the need to buy any hardware or licenses. You'll directly lower your total cost of ownership. The solution is flexible and scalable to your business needs and goals. SaasNow is based on a monthly contract and guarantees maximum flexibility.

END USERS

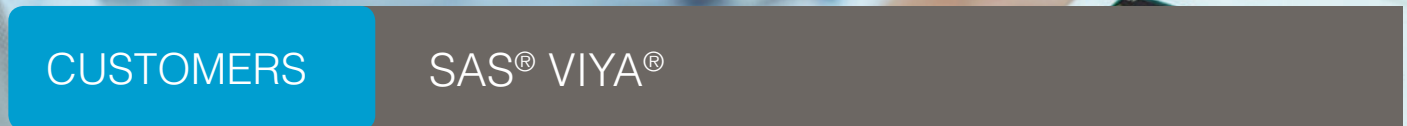

As an end user, you can easily order SaasNow and choose a partner in your country. If you don't have a partner, SAS® will put you in contact with a local partner.
