SAASNOW FLEXIBLE

SAASNOW FOR PARTNERS

Just imagine: suppose you were able to create a scalable and flexible SAS® Visual Analytics environment in just a couple of hours, giving your clients access to the full environment for a monthly fee. Sounds too good to be true, doesn't it?

In conjunction with SAS®, cloud provider Amsio has launched a unique proposition into the market, which enables SAS® environments to be activated directly through the SaasNow portal. Selling a SAS® proposition has never been so fast and easy!

IF YOU WANT YOUR SAS® SOFTWARE NOW

SaasNow provides a complete, live environment of the different solutions of SAS® Viya® within 1 working day. SaasNow answers all client demands in terms of flexibility, speed and time to market. Adding data to the environment is possible through the software, the Data Manager or Secured FTP.

SAASNOW.COM

WHY SAASNOW?

- SAS® Software from the cloud

SAS® VIYA®

SAS® Viya® is a completely new analytics and visualization architecture. SAS® Viya® enables SaasNow to deploy big cloud solutions and to scale up to more than 16 cores. Also, integrating with existing database environments is easy. SAS® Visual Data Mining and Machine Learning and SAS® Visual Analytics are the first applications running via SAS® Viya® at our SaasNow portal. With SAS® Viya® you can also bring your own licenses.

HOW TO BECOME A PARTNER

By becoming a SaasNow partner you get direct access to the SaasNow portal to manage SAS® environments. Your SAS® Software is entirely Pay As You Go, you only pay for the environments you use, no initial investment required. To top it off we even pass the SAS® license compensations on to you. Partnering is completely free.
